  - 5. Overview of the Project:**
    - a. Introduction to work:** Canning-I Dev. Block is one of the thirteen Sunderban region blocks of South 24 Parganas. Five out of ten gram panchayats of this block lies in coastal area. To protect those coastal area from storm, flood implementation of mangrove schemes through MGNREGS have been initiated at Nikarighata village. Moreover, MGNREGS is a life-style changer for villagers by allowing the earnings of villagers as well as development of villages through permanent asset creation.
    - b. Need for work:** Natures have given us a lot and now it's our duty to pay back some. So for protecting our coastal area Nikarighata Gram Panchayat initiated 12 nos. of mangrove nursery schemes. Mangroves protect shorelines from damaging storm and winds, waves, and floods. Mangroves also help to prevent erosion by stabilizing sediments with their tangled root systems. They maintain water quality and clarity, filtering pollutants and trapping sediments originating from land. Moreover restoration work of coastal area damaged due to cyclones like Bulbul, Amphan is one of the top most priorities.
    - c. Challenges: N/A**

## 7. Impact:

### a. What are the benefits of the project and how it has changed the life of beneficiary:

- Mangrove will protect the coastal area from any damages that can be occurred due to flood, cyclones.
- After cyclones like Bulbul, Amphan our coastal area need more protection and mangrove is the best way to protect coastal area from cyclones.
- Persondays generated through this scheme helped members of MAA KALI SGSY like Mina Mondal, Shanti Mondal etc. and their family economically as they really needed financial support particularly in this pandemic situation.

### b. Interesting data representation: N/A

- ### c. Before and after analysis (if any):
- Coastal area chosen for the scheme was flooded during monsoon, so local people face the problem of water-logging in every monsoon. People stays near coastal area face all the storm in full swing. Mangrove will definitely decrease the impact of those storms, flood etc. in this area. Coastal area damaged due to cyclones are also restored through the scheme.

## 8. Voices from the field

Villagers are very happy for restoration of coastal area damaged due to cyclones. They expressed their pleasure as this mangrove will protect coastal area of their village from further damage in future.

Members of MAA KALI SGSY like Mina Mondal, Shanti Mondal etc. expressed their gratitude towards Nikarighata Gram Panchayat for providing them employment under MGNREGS 100 days work which make a way for them to earn livelihood for their family.
